With the DELTACO SMART HOME app, you take care of all handling for the lamp. The installation is fast and smooth, all you need is a working wireless network, ie. no special hubs or gateways. In the DELTACO SMART HOME app, you can control individual lamps individually or divide them into different rooms for easy handling of a group of lamps. In addition to turning a lamp on or off, you can also set a timer if you want the lamp to turn off after a certain time. Alternatively, you can schedule specific times when it should be on or off. The DELTACO SMART HOME app also provides the ability to create automatic actions. For example, that the light comes on when the sun has set, or if you want to group more lights together to do the same thing at a given time. The DELTACO SMART HOME app is of course available to download for free for both Android and iOS.
