## Elesense Gemini Asymmetric-light with backward light

### Product Parameters:

|                       |                              |
|-----------------------|------------------------------|
| Model                 | E1132                        |
| Material              | ABS+PC,zinc alloy            |
| Interface             | USB-A male cable             |
| Input                 | 5V-2A                        |
| Output                | 7W (max)                     |
| Foldable Size         | 50cm                         |
| Cable length          | 1meter                       |
| Light source type     | cold and warm dual-color LED |
| Color rendering index | Ra>95                        |
| Color temperature     | 2700K-6500K                  |
| Illumination          | Illumination>500             |

1. The light source type is cold and warm dual-color LED. 2. The color rendering index is Ra>95. 3. The color temperature is 2700K-6500K. 4. The illumination is >500. 5. The light source type is cold and warm dual-color LED. 6. The color rendering index is Ra>95. 7. The color temperature is 2700K-6500K. 8. The illumination is >500. 9. The light source type is cold and warm dual-color LED. 10. The color rendering index is Ra>95. 11. The color temperature is 2700K-6500K. 12. The illumination is >500.

front light | back light | Touch rotate controller
